65279;If you wanna get x4

If you wanna get x4

If you wanna get to know me x4

If you wanna get to know me x4

If you wanna get to know me,

Then you gotta show me,

Can you be there for me?

Are you strong enough?

Can you be my friend,

Till the very end?

When I give you love,

Will you give me love in return?

When you're close to me,

I can't help it.

I'm staring right through you.

Wondering why you don't notice,

I'd do anything.

My friend's say you know my name,

But it's just not the same.

If you wanna get to know me,

Then you gotta show me,

Can you be there for me?

Are you strong enough?

Can you be my friend,

Till the very end?

When I give you love,

Will you give me love in return?

Will you give me love in return?

You keep playing the shy guy around me,

Pretending you're too cool.

Tell me your free,

There's nobody you want more than me.

My friend's say you know my name,

It's just not the same.

If you wanna get to know me,

Then you gotta show me,

Can you be there for me?

Are you strong enough?

Can you be my friend,

Till the very end?

When I give you love,

Will you give me love in return?

If you wanna get to know me x3

Will you give me love in return?

If you wanna get to know me x3

Will you give me love in return? (Echoes x8 fades)

If you wanna get x4

If you wanna get x4

If you wanna get to know me,

Then you gotta show me,

Can you be there for me?

Are you strong enough?

Can you be my friend,

Till the very end?

When I give you love,

Will you give me love in return
