Contemplatin' every day

Wonderin' if I'm wastin' all of my time

You know I'm dedicatin' every thought on only you

My mama used to tell me that patience is a virtue

And so I wait through the night

Cause tomorrow you might find

That you will need me again

For some tender lovin' care

So I wait hopin' you

Will discover you're in love

That you need me

As much as I need you

And so I wait all my life

Hopin' one day you will see

That love's a lock

You're the key

You will come and rescue me

So I wait hopin' you

Will discover you're in love

That you need me

As much as I need you

It gets frustratin' time and again  
But I am not complainin' cause in the end  
If I just keep believin'  
No matter what, I'll be with you  
My mama used to tell me that patience is a virtue  
And so I wait through the night  
Cause tomorrow you might find  
That you will need me again  
For some tender lovin' care  
So I wait hopin' you  
Will discover you're in love  
That you need me  
As much as I need you  
And so I wait all my life  
Hopin' one day you will see  
That love's a lock  
You're the key  
You will come and rescue me  
So I wait hopin' you  
Will discover you're in love  
That you need me  
As much as I need you  
That patience is a virtue  
That patience is a virtue  
That patience is a virtue

And so I wait through the night  
Cause tomorrow you might find  
That you will need me again  
For some tender lovin' care  
So I wait hopin' you  
Will discover you're in love  
That you need me  
As much as I need you  
And so I wait all my life  
Hopin' one day you will see  
That love's a lock  
You're the key  
You will come and rescue me  
So I wait hopin' you  
Will discover you're in love  
That you need me  
As much as I need you
