Watching waiting rising falling  
Listening calling drifting  
Touching feeling seeing believing  
Hoping sending leaving

**CHORUS**

I couldn't say why you and I are Gemini  
If I tried to write a million words a day  
I see your shadow coming closer  
Then watch you drifting away

**VERSE****CHORUS**

I couldn't say why you and I are Gemini  
We're travelling a million worlds away  
I see your shadow coming closer  
Then watch you drifting away
