### "Arms Race"

Visit "[Arms Race](#)" on MotoLyrics.com

Nowhere to go don't even know my name  
Such a long time since I played your war games  
Don't know the rules but I can learn real fast  
They're gonna start a nuclear blast.  
Join in the arms race seems allot of fun  
Fingers on the button no need to use a gun  
They play their game with a loaded dice  
Don't take no orders we just follow advice  
The politicians they make all the noise  
They're playing pogo with their nuclear toys now.  
Join in the arms race seems allot of fun  
Fingers on the button no need to use a gun
