Partisans

"Don't Blame Us"

We get the blame for everything
For what we do and what we are involved in
No one considers the actual facts
We're the ones that get attacked
Don't blame us for it
The police give us a rough time
They pick us up at any time
Blame me for everything that I do
For every crime that's old and new
Because I wear my scruffy clothes
They beat me up and that's how it goes
Don't blame us for it
We get the blame for everything
For all the crimes that we are involved in
No one considers the actual facts
We're the ones that get attacked
