"(as it was in the beginning
is now and ever shall be...)
God is pressure
God is pressure more or less
it takes a life time
a life of loss to make a mess
oh but you suffer
I see you suffer with a smile
Look around yourself, baby
don't you think your in denial?
And it hurts, so bad
to see you got enough to breathe
don't make a move now
could be the thing that sets you free
just say you didn't mean it
it's a great big lie
just say you didn't mean it
it's a great big lie
and you pull the plug
you pull the plug to save your face
I'd be the first

to reconcile with grace
oh but you suffer
I see you suffer with a smile
look around yourself, baby
don't you think your in denial?
oh just say you didn't mean it
it's a great big lie
just say you didn't mean it
it's a great big lie
just say you didn't mean it
such a goddamn lie
just say you didn't mean it
it's a great big lie
oh you say now
just say you didn't mean it
it's a great big lie
just say you didn't mean it
it's a great big lie
just say you didn't mean it
such a goddamn lie
just say you didn't mean it
it's a great big lie
just say you didn't mean it"
