tell me lady, shining sun  
to feel the warmth that's come undone  
do yu sleep in sympathy  
and if it's true  
walk with me  
all of the while you were here  
all of the while you were near  
in the twilight the idols speak  
and in the twilight you'll always seek  
a sentimental forgotten friend  
who will always love you  
until the end  
and now you search for the ideals  
you'll find a vice that always heals  
the open wound, the bleeding hearts  
yet still they'll say  
you're torn apart  
//You cry out in your sleep  
//All my feelings exposed  
//And there's a taste in my mouth  
//As desperation takes hold

//Yet, that something's so good  
//Just can't function no more, when  
//Love, love will tear us apart again  
come on lady walk with me  
come on lady talk with me  
can't you see i'm all alone  
this loneliness i can't condone  
come on lady hold my hand  
take me to your shadowland  
sleep awhile in sympathy  
come on lady walk with me
