Don't tell me that you'll always be there!  
Don't say "My love", I feel your cold lies  
My freedom screams...  
Get out of my life!  
This is the time to let me breathe!

Your real world, made of cold (and) calculate  
effusions,  
Is crawling down before I sin first  
And now I say...  
How many thoughts, many delights  
Wasted for you....

I craved for a beat of your eyes  
Praying for a nice sweet smile  
It's not the same  
I can't fight  
Living, bearing  
Trough the nasty appeals yeah!

[Chorus:]  
I don't wanna justify myself  
I wanna let you down!  
I don't wanna justify yourself  
I wanna live!

[Electric Piano : MarK]

Through the streets of sorrow  
Many faces around  
In a World of Illusion  
Try to understand  
And now I say  
"How much distance is between us now!"

[Chorus:]  
I don't wanna justify myself  
I wanna let you down!  
I don't wanna justify yourself  
I wanna live!

Now I feel a strange kind of serenity  
You are miles away  
Now I want to play my game  
Let my future be  
Radiant and shine  
I live my life again...my life again!

[Synth Solos : Dario/Mark/Dario/Mark/Dario/Mark]
