You look at me from every angle, follow my every move
From the bed to the door
And what you see could mean a million things, too
early to assume
I'm the one you've been waitin' for

Hold my hand
Something you don't have to understand
For you to do

Hold my hand
C'mon lover, get under my skin
It'll all make sense to you

Day and night, you watch me from your hiding place
and won't tell
Anyone else about us
Footsteps in the shadows reveal secrets of a young
male
Fresh from love's shell and curious

Hold my

Hold my hand
Something you don't have to understand
For you to do

Hold my hand
C'mon lover, get under my skin
It'll all make sense to you

Love won't sit still long enough for you to take a picture
Of the bitter and the sweet
Roll it up and wonder what it's like to be the victor
Or to taste the defeat

Hold my hand
Something you don't have to understand
For you to do

Hold my hand
C'mon lover, get under my skin

It'll all make sense to you

Ooh lady, why you hidin' from me?

Ooh lady, why you hidin' from me?

[Incomprehensible]

Have to understand

Hold my hand

Get under my skin
