I hear the calamity of young ideas  
Gatherin' around the edge of my ears  
And we're waitin' for the bell to end the afternoon  
And usher in the evening, yeah

The night is young  
We've only just begun  
Grab a friend, jump on in  
Run from the end till it comes

The mirror has changed my shape  
Tomorrow used to be so kind and so far away  
Now it's clear when I touch my face  
The unmistakable feel of slippin' away

The night is young  
We've only just begun  
Grab a friend, jump on in  
Run from the end till it comes

My past is bigger and brighter than my future  
But the struggle is all the same  
I fight to mean somethin' in this life I live  
The end comes but the [Incomprehensible]

Don't they know I'm still here  
Pushin' against the atmosphere  
The best of things haven't been shared yet  
It just can't be over yet, over yet

(Can they hear me screamin'??)  
The night is young  
We've only just begun  
(Can they hear me screamin'??)  
Grab a friend, jump on in  
Run from the end till it comes

(Hear me screamin?)  
The night is young  
We've only just begun  
(Hear me screamin?)  
Grab a friend, jump on in

Run from the end till it comes
