[Letoya Lockett:]

[chorus:]

Nothin's been right
since you walked
out my life, so
please come back
cause i cant eat
i cant sleep, and
i cant go on, no
just cant go on
without you...

[Verse 1: MIMS]

See I was trynna do what I gotta (yeah)
you see I been around the globe but no Im not a trotter
(uh)
Im just a fiend for them green for them dollars (right)
So baby I dont mean what I mean when I holla (im
sorry)
After models, could blame it on the bottles, but
the truth is, I aint into excuses
The hoes love it when they see the coupe roof-less
Thats why Im always on that new shit
Cause, when I dropped in, hoes drop in
at the hotel and soon we got the clothes droppin
the game- they kept callin me but no stoppin
Im on the road doin shows so you can go shoppin
Now, you lonely moved on me
In the hood word is you got a new homie
But I aint mad, do you homie
Cause for me its mic check 1,2 homie..

[chorus]

[Verse 2: MIMS]

Up on a play on the way out, London, UK
Shorty at homie cryin out 'won't you stay' (whats wrong
wit you)
She cant stand the fact I'll be back in 2 days
Top all that I attract the groupies
So she sick til her tummy hurts

Honey-dip dont understand how money works
She said I work too hard with no play
She dont that that Im out there where them hoes stay
(yeah)
Or in the back of the club all in that rosay
rippin that bar up
End of the night Ima alcohol her
Im all up in the Waldorf Historia
In the suite with Miranda and Claudia
Weekend love is all that I can offer her
So when I get home Im more like a foreigner
Im in and out from NY to Florida
LA to TX then South of the Border

[chorus]

[Verse 3: MIMS]

Baby girl, baby baby girl
as soon as im back I'll take you around the world
I know its whack I put ya life through hell
I try to compromise with gifts babes, but still
This is real til the death of me
Cause you stuck around when there was nothin left of
me
You was there for me, plus you cared for me
So forever you will always get respect from me (let's
go...)

[Letoya Lockett:]

Baby your love means so much to me
With you is where I always wanna be
lovin you makes my life complete
You make my life complete- oh-ohhhohhh

[chorus]

[Fade: MIMS]

she said she said she said she said she said she said
baby girl, baby baby girl... baby girl, baby baby girl
