Hot sex for your pleasure set it off  
Liquid treasures floatin in the loft  
I'm in the mood  
I'm in the mood to lick you  
Let my tongue explore all up in you  
Around your belly button all around your neck  
Down to your legs baby what's next  
I'm coming in on deck check your reflex  
Me and you baby, doin the sex  
All night, make it hot, so nice  
I like just the way you make me feel all right tonite  
Time for the candle wax and Ice, on the fly carpet ride  
of life  
It's magic! on the dreamscape love bliss orgasmic!  
Ecstasy you don't wanna miss gotta have it!  
Animal sex with a twist like a rabbit!  
Hot sex every chance we get!  
What  
Chorus  
Hot sex all night, all night  
Hot sex all night, all night  
Hot sex all night, all night  
All night, all night, all right  
Hot sex all the time  
You can find  
Hot sex on my mind in my rhyme  
Wet dreams escape from reality  
Aphrodisiac keeps on calling me  
Testosterone I can't hold back  
Hard to the bone when I'm under attack  
Like a butterfly silk skin, I drive it in  
On a quest for the pearl give ya back ends  
Like a shockwave movin through your spine  
Orgasmic surges leave ya blind  
On and on shakin' like a shockwave  
Blastin' volcanic lava in my face  
It's magic! on the dreamscape love bliss orgasmic!  
Ecstasy you don't wanna miss gotta have it!  
Animal sex with a twist like a rabbit!  
Hot sex every chance we get!  
What

Chorus

Hot sex all night, all night  
Hot sex all night, all night  
Hot sex all night, all night  
All night, all night, all right  
Hold your head back, baby close your eyes  
Get ready for a trip that leaves you hypnotized  
With champagne crank the hot tub  
Strip your clothes, hot oil rub  
Burn the incense underneath the sky  
Sex escapade my mind's on high  
And with my bag of nuts and sack full of tricks  
Down for whatever all up in the mix  
And with my hands on your backside let it slide  
Break through straight to the other side  
And then we ride like Bronco Billy  
Saddle up baby it's time to get silly  
It's magic!  
On the dreamscape love bliss orgasmic!  
Ecstasy you don't wanna miss gotta have it!  
Animal sex with a twist like a rabbit!  
Hot sex every chance we get!  
What  
Hot sex all night, all night  
Hot sex all night, all night  
Hot sex all night, all night  
All night, all night, all right
