(performed by partners in kryme featuring debbe cole)

Chorus:

L-o-v-e 2 l-o-v-e u

L-o-v-e 2 l-o-v-e u

Rap:

When it comes to love

I'm your m-a-n,

I put your heart to the test again and again

I got you coming up to air

Better check your pulse

This is multiple choice

Or true or false

Now here is the question, a, b or c

Do you feel you can deal with a man like me

Well if the answer is yes, no or maybe

You're still gonna love to love me baby...

When it's late at night

I dream of holding you tight

There is a world of love that we must explore

Whenever you are near

It becomes so clear

I made you feel things you never felt before

When our bodies touch, it becomes too much

To diffuse this bomb you need the code

Now our temperatures rise and it's no surprise

You've just run out of time

I'm gonna explode

Chorus

Love 2 love u, baby

2nd verse:

When I'm all alone

I sit by the phone

Wishing, hoping that you'll call

So I can talk to you about the things I do

You know I'm such a trip

That you're gonna fall

Run but you can't hide
Forget about my pride
I'm not too proud to beg
It's you that I crave
Yes, I'm in control
I want your heart and soul
And before I'm through you'll be my slave
Cause when you're lying so close to me
There is no place I'd rather you be
Than with me, here
Ahh, love 2 love u, baby

2nd rap verse:

Girl I'm like a panther
I've got the answer
Cool and smooth
You move like a dancer
You delight me, ignite and excite me
The others like to play the game
But you never fight me
Can't resist you
You know that I missed you
Caught inside your web
From the moent I kissed you
You love to love me
I know that you do
But believe it or not
I love to love you too

[extended rap]

And you like my touch
So much that you shiver
Like the post office
I'm gonna deliver
With next day service
So don't get nervous
So put up a sign
Please don't disturb us
Rub your body with lotion
Whisper sweet nothing
Drop the love potion
Well you can kiss, squeeze or hug or rub me
Cause girl you're gonna
Love to love me

Repeated verse:

When you are lying so close to me
There is no place
I'd rather you be
Than with me, here

Chorus:
Ahh, love 2 love u baby

Repeated verse:
Run but you can't hide
Forget about my pride
I'm not too proud to beg
It's you that I crave
Yes I'm in control
I want you heart and soul
And before I'm through
You'll be my slave
Cause when you're lying so close to me
There is no place
I'd rather you be
Than with me, here
Ahh, love 2 love u baby
