From the back of your heart  
To the palm of your hands  
That's what you wanted  
A bloody kiss A second chance  
Don't cover your eyes  
Right before you die  
Embrace the night come to life  
Inside you know it's right  
Say goodbye

Josie's In love tonight with the undead  
She sacrificed all she had  
Her heart won't beat again  
Josie's in love with the undead

From the look on your face  
To the fear in your eyes  
That's what you wanted  
Eternal life screaming cries  
Don't cover your eyes  
As darkness bleeds the light  
Embrace the night come to life  
Inside you know it's right  
Say goodbye

Josie's In love tonight with the undead  
She sacrificed all she had  
Her heart won't beat again  
Josie's in love with the undead

Just say goodbye  
Just close your eyes
