(Get out of my house!)

We're not different, we're non-descript, we're blending  
in

I would like to spend some time in isolation with you

We're not different, we're non-descript, we're blending  
in

I would like to spend some time in isolation with you

I come from nowhere!

Welcome to nowhere

I come from nowhere!

Welcome to nowhere

Don't get me wrong I'm happy to dance the night away

We're not different, we're non-descript, we're blending  
in

I would like to spend some time in isolation with you

We're not different, we're non-descript, we're blending  
in

I would like to spend some time in isolation with you

I come from nowhere!

Welcome to nowhere

I come from nowhere!

Welcome to nowhere

Don't get me wrong I'm happy to dance the night away
