Shadows in your heart
Deception in your eyes
Your smile seems to be
Like violence in disguise

Yesterday your vibes
Were so close to mine
But our love is slowly
Just running out of time

Just another day to live
Just another night to die
Cause we all know that praying
Means saying goodbye
Baby you and i
Were murdered by a lie
And when nightmares keep yelling
They're telling you why
Love must die

Maybe i was dumb
Maybe i was blind
But now suspicion
Is creeping through my mind

I kept trusting you
But i can't deny
That pain called love
Is just about to die

Just another day to live ...

Yesterday your vibes
Were so close to mine
But our love is slowly
Just running out of time

Just another day to live ...
