Built a castle for yourself
You left me drowning
Like a hunter in the night
I was your prey
And your heart is cold and dark
You left me bleeding
Your plague was meant to kill
I'm still here
I'm the amazone
That you've brought out in me
Fighting for my destiny
So go and watch your

Kingdom burning down
And there's no one here to save you
Cause you're all alone
Ay ya ya wild horses running free
And don't you try to find me
Watch your kingdom burn
See it burning down!
See it burning down!

It's the warrior in me
I'll keep on fighting
It's too late to beg - please
Cause I have gone
If you dare to come too close
I've got the weapons
Don't you dare come in my way
Cause I'll strike back!
I'm the amazone
That you've brought out in me
Fighting for my destiny
So go and watch your

Kingdom burning down
And there's no one here to save you
Cause you're all alone
Ay ya ya wild horses running free
And don't you try to find me
Watch your kingdom burn
See it burning down!

See it burning down!

I have sailed all seven seas
Conquered hearts of enemies
I have suffered for my dreams
Made a deal with eternity

Kingdom burning down
And there's no one here to save you
Cause you're all alone
Ay ya ya wild horses running free
And don't you try to find me
Watch your kingdom burn

See it burning down!
See it burning down!
