We're sitting here like strangers
What is left to say?
I used to know you off by heart

Hanging out on this cold day
The rain dries me out
I haven't seen you here - for 5 or so years

Sitting next to me - I'm trying to find the spark

Oh - come and say my name
The way you used to all those years ago
I know you
There's a smile on my face
Every time I memorize those days
Come and say my name

What have you been up to?
You still wear that ring
The one I got you years ago

I feel no remorse
It's how it had to be
We changed the lanes
Found someone who takes care of me

Sitting next me - a hologram us

Oh - come and say my name
The way you used to all those years ago
I know you
There's a smile on my face
Every time I memorize those days
Come and say my name

Come and say my name
Come and say my name
Time has passed, what we had,
You're bringing up these pictures
In my head

Oh - come and say my name
The way you used to all those years ago
Oh - let me see that face
I wanna see you smile for me again

Oh - come and say my name
The way you used to all those years ago
I know you
There's a smile on my face
Every time I memorize those days
