And I don't know know, I don't know what I can do for you
You make my heart beat beat a beat, like a drum for you

Everyday it's closer
Don't take it back, no no sir
I'll play my favorite part for you-o-o-o-o-o-o-oooh
I'm in a strange position
Come on and join were i am at
I'll keep the door wide open for you-o-o-o-o-o-o-oooh

And I don't know know, I don't know what I can do for you
You make my heart beat beat a beat, like a drum for you

This is the part we both love, we cover our skin cause it's so cold
How did I find myself here with you-o-o-o-o-o-o-oooh
Granted you play your cards right, baby I swear I won't fight
I like this game we're playing, do you-o-o-o-o-o-o-oooh?

And I don't know know, I don't know what I can do for you
You make my heart beat beat a beat, like a drum for you
And I don't know know, I don't know what I can do for you
You make my heart beat beat a beat, like a drum for you

And I don't know know, I don't know what I can do for you
You make my heart beat beat a beat, like a drum for you
And I don't know know, I don't know what I can do for you
You make my heart beat beat a beat, like a drum for you
