Happiness is nothing you should dream about
Your life is based upon your own desicions

I know who you are and what you are about
you try to hide it so well but I can see you through
Stop playing your games, you are losing ground
Anyone can see it. your invisible crown

I am not alive, never will be free

dreams are cursed
Haunted by my nightmares
dreams are cursed
You create your own destiny

Every day you wake up feeling even number
It is not a path you chose, but now you are in deep
under
started out with good reasons and some is sad to tell
but now you are just acting lost, silent screaming "help
me"

I am not alive, never will be free

dreams are cursed
Haunted by my nightmares
dreams are cursed
You create your own destiny

I am not alive, never will be free

(I'm in your dreams)

dreams are cursed
Haunted by my nightmares
dreams are cursed
You create your own destiny
