"Give Me The World"

Born without a dollar or talent
Bad fortune and lost right from the start
Grew up to be an angry boy
Until I found my way out of here

Crowded streets
Everybody is out to see
A new star is rising
That star could be me

Give me the world

Out of this town
No fortune here to be found
I'm seeking for a deal to get me out of here
Now that I've found my way out
I'll be leaving ground

Crowded streets
Everybody is out to see
A new star is rising
That star is me

Give me the world

(repeat chorus)
