Get outta my way, I'm in the hot seat
Rock in motion, It's in your heartbeat
Never givi'n in, Wild life excites me
Always on the run and still runni'n

Turn the volume to the max - you know it's gonna rock
Someone screami'n "turn it down" - we turn it to the top

Rock' n roll - the only thing my heart will ever need
Play ot loud - let the crowd know we're here to stay

I spent some time in my past years
Thinki'n 'bout the tears that I wasted
But nothing gets me up like this music
And some smoke and drinks to go with it

Turn the volume to the max - you know it's gonna rock
Someone screami'n "turn it down" - we turn it to the top

Rock' n roll - the only thing my heart will ever need
Play it loud - let the crowd know we're here to stay

(solo)

Drums of thunder beats inside my heart
(tear my sense apart)
Blazing solos, six string gods
(makes us who we are)

Rock' n roll - the only thing my heart will ever need
Play it loud - let the crowd know we're here to stay
