Take this relentless black thorn

Fall
She kills

Poison victim to her every touch
Poison - drips from her lips
Poison - black winged angel
Body of sin
Poison - nailed within

Cold
Killer without regret
Fall prey to her kiss
Come take what you came for

Crash
Cease to breathe
Now your fate awaits
Crash
Cease to breathe

Heaven's guilty pleasure bitter
Stale worn face
Breathe in, shallow
Crawling, failing
Breathe in, shallow
Dead to me
