I remember the night I met you
I knew right then I would never forget you
When you came to me
From across a crowded room

All I needed came wrapped around your heart
In a matter of minutes the flame began to start
Not a moment too soon
From across a crowded room

And I said to myself
This is the one that I've been needing
There's nobody else
Who could stop this breaking heart from bleeding...
Oh no...

There was no way I could let you run
Through the night without me to some other one
I had everything to lose till you came to me
From across a crowded room

And I knew I couldn't find it in my heart
To let that night go unanswered
Bring to me the love I need
From across a crowded room
From across a crowded room
