There was a time in my life when I was with you
And everything was going right
But we got caught in the change and everyday
It would rain right on through the night
But it was never enough to put out this
Fire in my heart
Am I asking too much to want to stay in touch
With the dreams that took us this far

And I walk the river until it all runs dry
Lookin' for the answers
That live between you and I
If you're the last thing I have left to lose
Here in my life
I will walk this river till it all runs dry

I'm livin' with pictures of you I carry so close to me
Captured in time I remember so well how it used to be
And you can catch me here running
With the dream in my hand
Knowing that some day in some way
We'll be together again

And I walk the river until it all runs dry
Lookin' for the answers
That live between you and I
If you're the last thing I have left to lose
Here in my life
I will walk this river till it all runs dry

I follow it upstream, I follow it down
Out to the country and deep into town
And all these things that used to satisfy
Leave me lonely here with only tears in my eyes
