"the clock ticks down the time draws near  
you already know what you don't want to hear  
you can't solve this puzzled mind  
you've never lost (there's always a first time)

don't look back when you are free  
everything will burn with me  
i am set on self-destruct  
and the clock ticks down  
my time has come

5...4...3...2...1

just run  
just run from me

i never lied i warned you then  
once more i try and i fail again  
all the hell that i put you through  
see what have i done to you

i'm killing you, you must believe  
i will drag you down with me  
i am set on self-destruct  
and the clock ticks down  
5...4...3...2...1

just run  
just run

i am eating you alive  
save yourself because you can't save me  
you can fool yourself but tell me...  
at what price salvation?

at what price salvation?  
tell me at what price salvation?  
tell me at what price salvation?  
save yourself because you can't save me

i never lied i warned you then

once more i try and i fail again  
all the hell that i put you through  
dear god what have i done to you?

i'm killing you, you must believe  
i will make you burn with me  
i am set on self-destruct  
5...4...3...2...1

just run  
just run

i am eating you alive  
at what price will my salvation be?  
you can save yourself  
but you can't save me

at what price salvation?  
tell me at what price salvation?  
tell me at what price salvation?  
save yourself because you can't save me

you can't save me  
you can't heal me  
you can't help me  
you can't fix me

i am

broken"
