"Early In The Morning"

Visit "[Early In The Morning](#)" on MotoLyrics.com

Evening is the time of day
I find nothing much to see
Don't know what to do but I come to
When it's early in the morning

Over by the window day is dawning
When I feel the air
I feel that life is very good to me, you know

In the sun, there is so much yellow
Something in the early morning meadow
Tells me that today, you're on your way
And you'll be coming home, home to me

Night time isn't clear to me
I find nothing near to me
Don't know what to do but I come to
When it's early in the morning

Very, very early, without warning, I came
Feel a newly born vibration
Sneaking up on me again

There's a song bird on my pillow
I can see the fun in weeping willow
I can see the sun, you're on your way
And you'll be coming home, home with me
