i don't know if i can escape this
the same old things are getting me down again
i don't know how i'm going to break this
cause everyone is fine being just the same

close my eyes
i feel as if i'm someone different
close my eyes
i feel as if they're taking over here

take a second glance and you'll realize who i am
i'm an alien and there's nothing i'd change about me
you don't know who you are in this plastic world
well baby come and see
come be an alien with me

i don't know if i'll be accepted
but i don't care cause i live with no shame
i don't care if i am invited
cause i'm not the one who is in need

close your eyes
do you feel as if your someone different?
close your eyes
do you feel as if they're taking over here?

take a second glance and you'll realize who i am
i'm an alien and there's nothing i'd change about me
you don't know who you are in this plastic world
well baby come and see
come be an alien with me

don't turn around it's darker in here
don't believe what you see or hear
don't turn around you can escape from here
don't believe what you see or hear
only believe in you

take a second glance and you'll realize who i am
i'm an alien and there's nothing you can change about
me

you don't know who you are in this plastic world
well baby come and see
come be an alien with me
must be an alien
