She was lying on the grass, lying on the grass
Watching all the cars go past
The misery chords weep from the radio, ignored

That's all, that's all
That's all, that's all
Before the fall, before we blew it all

Walking down the street, walking down the street
Kicking up the leaves, falling at her feet
Summer seems like a lover leaving, oh, don't go

That's all, that's all
That's all, that's all
Before the fall, before we blew it all

She only wants to be happy
She wants you to want to be happy too
She's much too good for you

That's all, that's all
That's all, that's all
Before the fall, before we blew it all
