### Verse 1

I used to dream big  
Had gotten so far  
'Till somethin' came in  
And it changed my heart  
I took it so hard  
I couldn't find my spark  
And I was about ready to give in

### Pre-Chorus

Bet you don't know it  
Bet you don't know it  
You gave me a reason to keep goin'  
When I couldn't see it  
You made me see it  
You are reason why I believe in my dreams

### Chorus

I used to think that dreams were only dreams  
I hate to sound cliché but that's exactly what I mean  
But all of that changed when I took a look at you  
Yeah they really do (ah hah ah)  
Yeah they really do come true  
Yeah they do (ooh!)  
Girl you're living proof (ah hah)  
That dreams really do come true

### Verse 2

I couldn't cave in  
I hadn't enough  
You made me look within  
And see what I'm made of  
You became the spark  
That jump-started my heart  
Girl you got me dreaming again

### Pre-Chorus

Bet you don't know it  
Bet you don't know it  
You are the reason why I keep goin'  
When I couldn't see it

You made me see it  
You are reason why I believe in my dreams

Chorus

Bridge  
I've captured my dreams  
I'm holding on tight  
(I'm never letting go, never letting go)  
I'm planting my feet  
I'm down for the ride  
And finally  
I feel like I'm right where I'm supposed to be
