I'm down to have a good time
The moment is right to have a good time
Whether tonight or forever
You know it's better
When we have a good time

Let's suppose we throw a party
And the music's moving everybody
Or let me paint a picture when I'm with ya
Sharing snacks while watching motion pictures

Just trying to see
What do you think?
There's so many things that we can do
Don't matter to me I'm easy to please
So what do you wanna do?

I'm down to have a good time
The moment is right to have a good time
Whether tonight or forever
You know it's better
When we have a good time

I wanna have a good time
Came to have a good time
Throw your hands up
If you wanna have a good time

Ain't gotta be a surprise
Any place will do fine
Long as it's a good good time

Just imagine, waves are crashing
While we hang around the fire laughing
Or we can keep it simple and just stay home
Kicking back to re-runs of old shows

Just trying to see
What do you think?
There's so many things that we can do
Don't matter to me I'm easy to please

So tell me what do you wanna do?

I'm down to have a good time
The moment is right to have a good time
Whether tonight or forever
You know it's better
When we have a good time

I wanna have a good time
Came to have a good time
Throw your hands up
If you wanna have a good time

Ain't gotta be a surprise
Any place will do fine
Long as it's a good good time

Tonight is the night
It's all in our control
'Cause when we get together
Let the good times roll
It never feels right
To go at it alone
That's why when we're together
The good times roll

Just trying to see
What do you think?
There's so many things that we can do
Don't matter to me I'm easy to please
So what do you wanna do?

I'm down to have a good time
The moment is right to have a good time
Whether tonight or forever
You know it's better
When we have a good time

I wanna have a good time
Came to have a good time
Throw your hands up
If you wanna have a good time

Ain't gotta be a surprise
Any place will do fine
Long as it's a good good time

I'm down to have a good time
The moment is right to have a good time
Whether tonight or forever
You know it's better

When we have a good time

I wanna have a good time
Came to have a good time
Throw your hands up
If you wanna have a good time

Ain't gotta be a surprise
Any place will do fine
Long as it's a good good time
