(We're gods and toys)

Oh you are my tiger
And you like to party
You beautiful one
I have a lion shoulder
To rely on, cry on, honey

Oh you are my engine
And I like to start you
You beautiful one
I know a secret highway
We can drive on, jive on, honey

So we do it again

We are gods and toys
And we leave love longing
'Cause that's what makes us happy
We are gods and toys
And we got no choice
And we leave love longing
'Cause that's what makes us happy

Oh you are my tiger
And you like to party
You beautiful one
I have a lion shoulder
To rely on, cry on, honey

Oh you are my engine
And I like to start you
You beautiful one
I know a secret highway
We can drive on, jive on, honey

So we do it again

We are gods and toys
And we leave love longing
'Cause that's what makes us happy

We are gods and toys
And we got no choice
And we leave love longing
'Cause that's what makes us happy

We are gods and toys
We are gods and toys
We are gods and toys
We got no choice
And we leave love longing
'Cause that's what makes us happy

We are gods and toys
And we leave love longing
'Cause that's what makes us happy
We are gods and toys
And we got no choice
And we leave love longing
'Cause that's what makes us happy

(We are gods and toys)
(That's what makes us happy)
