She's looking for long nights
and when she goes out, she goes out to just knock it
out
She's doing her shift-job til' ten
and then she goes out, she goes out to just knock us
out
And she sure knows, that she just got to see the Mo

[Chorus]
So we're givin'
and she gets in to the Mo,
now she's livin'
and we're makin' a so fantastic, everlasting show
So we're givin'
and she gets in to the Mo,
now she's livin'
and we're makin' a so fantastic, everlasting show

C'mon!

She's looking for fast love
and when she's in love she's in love to just knock it out
She's wearing her red stripes all tight
'cos this is the night, it's the night that she'll knock us
out
and we sure know, that she just got to see the Mo

[Chorus]*2
