I've carried this out for way to long,
I'm sick of singing these tragic songs,
It's been days since I could open my eyes,
Open my eyes,
Every waking moments's another passing by,
Passing by,
I'm leaft stranded on my own again,
Empty handed in need of amends,
Broken battered abused my friend,
Or could you not recall that name pretend,
That you ever shared a world with me,
I feel like I'm living the dying dream the one where you
wake up with me,
Pull the covers up with no light to see this all I have to
say,
About anything anymore,
I'm just trying to keep myslef on my feet,
Keep living in the consciousness of this,
Live with this,
I have to die from it,
How could you live like this,
Live like this,
This is my take back,
This is my final mark,
I'm not this used up person I'm not this tired lonely
fuck,
Every moment spent,
Is just another regret,
Different words could be said,
With our spirits lifted,
When every night spent,
Couldn't make a dent,
Another passerby,
Is this all I have to say,
About anything anymore,
I'm just trying to keep myself on my feet,
Keep living in the consciousness of this,
Is this all I have anymore I'm holding myself up,
I'm just trying to keep myself on my feet,
Keep living in the consciousness of this,
I'll pull myself out,

Out of the wreckage of my life,
I'll hold myself up,
Over dark and horrid skies,
When every nights spent,
We couldn't make we. we couldnt make a dent,
When every nights spend another passerby,
