What a brilliant plan
To steal a heart
Carve your name (Carve your name)
She will learn it well
You let her down (you let her down)
So Gently

And now she looks
Only straight ahead
Lie To Me (Lie To Me)
Tell me you neer expected
Her to leave

And it cuts you deep
Right where you want it
And it cuts you deep
Where it hurts the most

I hope it cuts you deep
Where it hurts the most
But the sad thing is
It's just what you fucking wanted

And now she looks only straight ahead
Lie to me (Lie to me)
Tell me you never expected
Her to leave

I'm breathing the life back into love
She's coming around
I'm breathing the life back into love
She's waking up
I'm breathing the life back into love
I'm breathing the life back into love
She's waking up

And the same graceful wind
That carried her to me
Will turn cold on you
Will bring you to your knees

When the stage caves in

What part of you will live?
And who would pay to watch you die?

Tell me you never expected
Her to leave

I'm breathing the life back into love
She's coming around
I'm breathing the life back into love
She's waking up

I'm breathing the life back into love
I'm breathing the life back into love
She's waking up

I'm breathing the life back into love
I'm breathing the life back into love
She's waking up

I'm breathing the life back into love
I'm breathing the life back into love
She's waking up
