DON'T TAKE IT SO HARD

Paul Revere and The Raiders

I've tried to let you down so easy
I'd like to still be just a friend
We shared such memories together
But all good things come to an end

You should not take it so hard
You should not take it so hard
You should not take it so hard
You should not take it so hard
You should not take it so hard
You should not take it so hard

You wonder when you are going to see me
I might just pass this way again
Until then don't you wait up for me
Cause now I'm getting in the wind
Don't you remember what I told you from the start
When people fall in love too much
It can cause a broken heart that won't mend easy
But if you just wait sometime
I may come walking to you in the sunshine
