Can you hear them saying - In Africa
We want freedom - In Africa
Can you hear them screaming - In Africa
About modern living

Africa - Nothing ever happens in Africa

Can you hear them crying - In America
When they talk of freedom - In America
Why are you screaming - In America
When you hear of Africa

America - Running in a circle in America

This is the money world - In Asia
It's not all the world - In Asia
When you are crying - In Asia
Can we hear them sobbing

Asia - Nothing ever happens in Asia

Are you believing - In Euroland
Can you really get it - In Euroland
Is it for better or worse - In Euroland
Or another part - Of USA

Euroland - No one is caring in

The tears fall upon us all
The question is:
Is it to quench the thirst
or flood us all?
