"Move On"

Visit "[Move On](#)" on MotoLyrics.com

You got to move on - You got to move on
Got to hold on - You got to hold on
Got to move on - You gotta keep on moving when the
world stands still

In a birthday suit and clean you were born to this world
With an open mind that could only do good
You tried to reach the top all the time
And nothing could really, really make you stop

You got to move on - Never ever stop
Got to hold on - You got to be strong
Got to move on - You gotta keep on moving when the
world stands still

You gotta set the wheels in motion to get anywhere
Time and Tide will wait for no man
It's a thin blue line between right and wrong
You better get on you feet an be strong

You got to move onâ€¦!

I said don't - Stand still
I said keep - Moving
I said Yeah

You got to move onâ€¦!
