"Voodoo"

There is a girl I met before
She is looking at me for sure
She's got magic in her eyes
There is a girl who's got the looks
With her nose in secret books
She's got me under her spell

What you do is voodoo
I know It's true - It's voodoo
What you do is voodoo
What you do to me is voodoo!

There is a sign I can't ignore
Number 13 on the door
And a riddim of the drums inside

What you do is voodoo
I know it's true - It's voodoo
What you do is Voodoo
What you do to me is voodoo!

And I was under her control
In her hands she had a doll
That looked just like me
The needle flashing bright
No escape for me tonight
