Merciful angel,
You always been there

When it all got to painful
I was mad with despair

Lying down in the ruins
Tied with wires to this chair

You just point to new star
I follow you there
I follow anywhere

Follow you blind cause I trust you
Im willing, I'll bear

What I don't see won't hurt me
I'll follow you there
I'll follow anywhere

Calling you now
Cause it's worse than before
When I look to the sky
I see only a door

And it's black
And it's altered
And it's locked from inside

So I guess things have changed
You have something to hide
You've something to hide

You were The Way, and The Truth, and The Light
Thought you had all the answers
I follow you blind

You were The Way, and The Truth, and The Light
Thought you had all the answers
I follow you blind

Follow you blind cause I trust you
Im willing, I'll try

What I don't see won't hurt me
So give me a sign

Give me a sign
Give me a sign
Give me a sign
