Saying the little things is often harder than feeling your way around a bigger statement, the words just don't come out very easily to me, I pour out my heart somehow I don't say anything. But just you wait. And the Ambulance was an accident but a testament to my favourite word, you know it's more like a miracle, and would it be better if it didn't matter, if it didn't matter to you it matters to me, you know its hard to prove. I left all my friends and ran away to the North and give him it all if that's what the man wants, and I disagree quietly from far away, you're talking to somebody else I'm on the phone though. But look closer. And the Ambulance was an accident but a testament to my favourite word, you know it's more like a miracle, and would it be better if it didn't matter, if it didn't matter to you it matters to me, you know its hard to prove. Ba ba ba. And the Ambulance was an accident but a testament to my favourite word, you know it's more like a miracle, and would it be better if it didn't matter, if it didn't matter to you it happened to me, you know its hard to prove
