Back in the days when we first met  
Those times  
We had I'm never gonna forget  
Long summer nights and lazy days  
We knew our love  
Was not a passing phase

Suntan lotion that failiar smell  
I made you a neckless  
From a chain of shells  
The sand on my feet  
And the warm sea breeze  
A kind of romance that's hard to believe

Our bodies together beneath the palms  
We had our first kiss  
I melted in your arms

I'll give you my love - an eternal love  
From me to you if you return  
A token of love - an eternal love  
From you to me I'll give my love

When autumn leaves were on the ground  
We had long walks  
Together with no one around  
Long conversations alone in the park  
That carried on til way after dark

Winters chill and icy streets  
Inside it's warm on Christmas eve  
The fire burning  
Our bodies yearning  
Round and round the wheels of love  
Are turning

So promise me (Will you promise me)  
and I'll promise you  
An eternal love eternal love

The very first fragrance of spring is in the air

And each and every moment  
We still love to share  
Alone together just the two of us  
It was then I knew my heart belonged to you  
Mmmmm summers here

So promise me (Will you promise me)  
and I'll promise you  
An eternal love eternal love
