too much energy  
can bring you life  
a tongue bite  
just to reach into your eye  
it's getting late  
you said enough  
it's not enough to move this foward

ride  
escape  
why won't you fasten and lean on me

you look strong  
come bring me life  
a tongue bite  
just to reach into your eye  
it's getting late  
you said enough  
it's not enough to move this foward

ride  
escape  
why don't you fasten and lean on me

now breathe in  
and slide me in  
wash right over everything  
breathe in that story's end to start off asleep  
don't worry
