Take me as I come  
Touch me so I come  
Don't you go rounds smelling like that  
I will drop my bones

And all when winter ends  
I will be long gone  
And all when winter ends  
I will rub my bones

And with my dynamite  
I can take over the world  
And with my flying kite  
I can watch over the world  
But its to absurd

And all the naked girls  
Can't touch me that way  
And all the naked girls  
Can't hear what I say

I licking my wounds  
And I be dropping my bones  
And all the naked girls  
Can't hurt me that way

And with my dynamite  
I can take over the world  
And with my flying kite  
I can watch over the world

And with my dynamite  
I can take over the world  
And with my flying kite  
I can watch over the world

But it's to fucking absurd

We're a happy family
