If you're listening...  
And we go round and round  
Life is just a moment in time...

(Slim Kid3)  
I recall being three when Sunny passed away one of the  
greatest  
in my eyes till this very day too young to understand  
but  
understood the ways of good and evil life and death  
was in the  
breath of times fate and God only knows that kept  
Peggy  
straight cuz in the very next year my Aunt Dorothy was  
the late,  
more beautiful than the word it was like killing a  
mocking bird  
She was so young like the new year was all you heard  
almost  
saw it so clear the good times that we had when my  
momma showed me pictures life wasn't so bad I got  
baby sat  
by Pat when Bedie was a small guy and in our cousins  
eyes we  
were both small fries, Jazzywazzys growing up to be a  
big girl  
now  
Father figure understands a man might like her profile  
I let sink in a while and told let 'em like ya style both  
you  
and Ebony I be damned if this short life ain't heavenly  
peace  
and harmony family season and it goes...

And we go round and round  
Life is just a moment in time...
