Brenda's got a Baby
Brenda's got a Baby

I hear Brenda's got a baby
Well, Brenda's barely got a brain
A damn shame
Tha girl can hardly spell her name
(That's not her problem, that's up to Brenda's family)
Well let me show ya how it affects the whole community
Now Brenda never really knew her moms
and her dad was a junky puttin death into his arm
It's sad, cause I bet Brenda doesn't even know
Just cause your in the ghetto doesn't mean ya can't
grow
But oh, that's a thought, my own revelation
Do whatever it takes to resist the temptation
Brenda got herself a boyfriend
Her boyfriend was her cousin, now lets watch the joy
end
She tried to hide her pregnancy, from her family
Who didn't really care to see, or give a damn if she
Went out and had a church of kids
As long as when tha check came they got first dibs
Now Brendas belly is gettin bigger
But no one seems ta notice any change in her figure
She's 12 years old and she's having a baby
In love with tha molester, whos sexed and crazy
And yet she thinks that he'll be with her forever
And dreams of a world with tha two of them are
together, whatever
He left her and she had tha baby solo
She had it on the bathroom floor and didn't know so
She didn't know, what ta throw away and what to keep
She wrapped the baby up and threw him in the trash
heap
I guess she thought she'd get away, wouldn't hear the
cries
She didn't realize how much tha the little baby had her
eyes
Now tha babys in the trash heap balling
Momma can't help her, but it hurts to hear her calling

Brenda wants ta run away, momma say, you makin' me
lose pay
The social workers here everyday
Now Brenda's gotta make her own way
Can't go to her family, they won't let her stay
No money no babysitter, she couldn't keep a job
She tried ta sell crack, but end up getting robbed
So now what's next, there ain't nothin left ta sell
So she sees sex as a way of leavin hell
It's payin tha rent, so she really can't complain
Prostitute, found slain, and Brenda's her name, she's
got a baby

Baaaaaaaaby

(don't you know she's got a baby)
(don't you know she's got a baby)
(don't you know she's got a baby)
(don't you know she's got a baby)
(don't you know she's got a baby)
(don't you know she's got a baby)
