Those cold December mornings I'd come running back
from my home
Heading on down to old Fetter's Pond I knew I wouldn't
be alone.

Eight kids from the neighbourhood all dressed and
ready to go,
Drop the puck upon the ice there'll be a might show.

We're singing Na Na Na Nana Na Na Na
I want to be a hockey star

Play until the sun went down, or until we'd start a fight,
When all of us neighbourhood kids argued who was
right.

But always the next morning, we'd be shooting the old
puck around
Talking about our hero's and leaving this little town.

Because..

I want to be a hockey star
I want to lead the way like Rocket Richard
I 'm going to have my own Upper Deck hockey card
Showing Blades of Steel on me.

I was playing Midget AAA in this shitty town
I was having fun out on the ice. I was beating
everybody down.

Junior scout was watching and he offered me a shot,
Heading on down to Kamloops saying, "Buddy thanks a
lot"

Now we sing Na Na Na Nana Na Na Na
I want to be a hockey star

I was playing nearly every game. I was working them on
the boards

Other teams all hated me but all the fans would roar.
They said "Better than Wayne Gretzky, better than
Brett Hull,
Fuck even better than Mario." I'll be better than them
all.

Because..

I'm going to be a hockey star

I'm going to lead the way like Rocket Richard

I'm going have my own Upper Deck hockey card

Showing Blades of Steel on me

It's -20 outside, me and my buddies are back at the pond.

Broke my leg in Red Deer now my whole career fell down.

So I'll drink a case of Piper then I'll get real high

Playing great Canadian hockey under great Canadian sky.

Because..

I could have been a hockey star

I could have lead the way like Rocket Richard

I could have had my own Upper Deck hockey card

Showing Blades of Steel on me

(Repeat)

Showing Blades of Steel on me
