So many different images  
In the loneliness that kills  
Waiting the time to strike  
The clock of the galaxy to strike  
The beats to be heard!!!!

In dreamy kingdoms  
In forgotten castles  
In obscure ruins  
I look for the key  
Of the secret dragon!!

I look for it in virgin paths  
In oblique cliffs  
In unholy graves  
In secret catacombs  
Which oblivion has erased  
From my memory!!!!

That which brings happiness - to others  
That which brings the end - to me!!!

Ancient sign that rises  
Natural phenomena that awake  
Contracts signed by blood  
Last wills never seen, under the light!!!

The last prophet has foretold it  
But it was forgotten through time  
The dark wizards saw it  
But nobody believed them  
Because they lived in the time of darkness!

Perhaps some day  
We will be free from the curse  
The secret will be revealed  
And future will be present,  
By bringing back the time!!!

I am surrounded by incorrigible scenes  
Rustle of leaves without wind  
Hope without luck

Waiting to meet you  
My eternal destiny  
But he won't let you  
Aw he knows the dark secret!!

Me will be waiting for the sign  
In the sky, the sea,  
The four winds, the hades,  
The abyssig horizon...  
Where ever it - will be revealed...  
Where ever it - will be revealed...  
It must!!!  
It must!!!
