Your lipstick lullabies stain my eyes.  
Cheap tricks, they run with lies.

I'm on the edge of a verdict  
So get your story straight.  
Your Dark-lined eyes can't change this fate.

You say stay with me tonight  
For just another night.  
Pretend, pretend we'll be all right.  
No not this time.

You're just the center of attention  
The way it's always been.  
It's just your world i'm living in.  
It's my time to live  
Now I begin.

You say stay with me tonight  
For just another night.  
Pretend, pretend we'll be all right.  
No not this time.

Your silhouette paints a picture of affliction  
A picture of affliction.

Your six letter lie  
Your six letter lie  
Your six letter lie.

Step up and show  
Show your true colors now.  
This is the only way  
This is the only.

Step up and show  
Show your true colors now.  
This is the only way  
This is the only way.

You say stay with me tonight  
For just another night.

Pretend, pretend we'll be all right.  
No not this time.

You can't pretend to be  
More than meets the eye  
Your change is just a six letter lie.
