(David Jones and Steve Pitts)
Walking around with your head in the clouds
You don't care.
Why must you walk when you know
You're not going anywhere.

Why don't you come out of your dream world
It's not real.
It's not the way it seems to be.
Why don't you come into the real world.
Come with me.
We'll share our thoughts, forget the dreams.
You'll see.

Always pretending that everything's fine
When it's not.
Why must you lie when you know that
You'll always get caught.

Why don't you come out of your dream world
It's not real.
It's not the way it seems to be.
Why don't you come into the real world.
Come with me.
We'll share our thoughts, forget the dreams.
You'll see.

[Instrumental]

Why don't you come out of your dream world
It's not real.
It's not the way it seems to be.
Why don't you come into the real world.
Come with me.
We'll share our thoughts, forget the dreams.
You'll see.
You'll see.
You'll see.
